

TOEFL® Primary™ Test

The *Test Of English as a Foreign Language*, TOEFL®, sets global standards for English-language assessment in academic environments. The TOEFL® Primary™ test is designed to measure general English-language proficiency and to support teaching and learning by giving information about students' abilities in relation to an international standard. Intended for students ages 8 to 12, the TOEFL® Primary™ test is not limited to any specific curriculum and provides schools, teachers, parents and students with an objective measurement of a student's learning progress during a language course.

The TOEFL® Primary™ test assesses reading and listening comprehension and is available in two levels of difficulty (Step 1 for beginners and Step 2 for advanced learners). The separate speaking test (for students in all stages of learning) can be combined with Step 1 or 2, or it can be taken on its own.
